The Flint Club members are also welcome to come along.

President's Report

Well, the Corvette season is in full bloom. We had our first outing of 2023 with a trip to Turkeyville in Marshall Mi. The Battle Creek Corvette Club was also having their show at Turkeyville the same day. The Flint Corvette club was planning on attending so we all went together.

It is interesting to see if people modify their cars to make them different or leave them stock. There was a restaurant, general store, ice cream and a Craft show so there was something for everyone. I always heard that no turkeys were at Turkeyville. Well, someone decided to change that and this year there were domestic turkeys on the grounds.

A group of us decided to return to the Flint area via the back roads which was a lot of fun. We received a lot of waves and thumbs up thru the small towns along the way. Two little Amish girls we passed peeking out the back of an Amish buggy driving on the shoulder of the road were mesmerized by the parade of Corvettes.

At a break the navigators decided we would need to stop somewhere for dinner so some phone calls were made and we ended up at the Sideline Sports Bar in Owosso.

Bob and Mary Hall did an excellent job leading the caravan to and from Turkeyville. Thank you to them, all that participated, and to those who were involved in the planning.

Our car show is Saturday June 10th at Suski's Chevrolet 10 a.m. till 3 p.m. If you would like to participate, please come to the show and help lighten the load. Hopefully the weather will be good as well as the participation. Over 150 flyers have been distributed throughout the Birch Run and Flint area so participation should be up. Jack and Jan Matsko have been doing a very good job getting everything organized.

Okay the temperatures are going to rise quickly as we are just getting started into the summer. So it is that time of year again for my public announcement. If you own a C6, C7 or C8 your door locks are electrically controlled so if you have a battery failure when you are in or out of the vehicle your doors will not open. If you are inside the vehicle the driver and passenger side have an emergency pull lever on the floor that will open the door. If you are outside the vehicle the access key on the FOB will allow you to access an emergency pull that will open the drivers' door. Please consult your owner's manual for that location for your generation. Even if you do not own any of these generations you should be aware of the procedures to access the vehicle in an emergency. Many new Corvette owners are not aware of any of this and it has been fatal. You could be in the right spot at the right time to save a life.

Our Board Meeting is Thursday June 8th at 5:30 p.m. at the Draft Sports Bar & Grill, 9128 Miller Rd., Swartz Creek, MI 48473 and the General Membership Meeting is at Mario's June 20th. If you want to attend the board meeting you are welcome and hope to see you at Mario's on June 20th.

Drive safe and keep the shiny side up.
